iGaming
PLATFORM

Gambling Platform

Designed for efficiency

Upgaming's **leading-edge technology gambling platform** has been created to make your casino **more effective and efficient**, enabling you to control the casino design, operations, and customers, manage marketing and advertising efforts with **affiliate and bonus systems**.

- | Back Office
- | Payment system
- | Risk Management
- | Bonus System
- | Licenses
- | Affiliate system
- | Agent system
- | Customer Management
- | Analytics & Reporting

Back Office

Powered by **years of gambling experience**, the back-office is the **core of your casino** that ensures every process runs as smoothly as possible. Thus upgaming offers a **fully featured** and **customized system** for your business. By accessing the back office, you can systematically **anticipate and manage risk**, enjoy bonus systems, have records of your profits, data analysis, and reporting.

- | Win and loss analysis
- | Number of registered users
- | Demographic statistics
- | Customer segmentation
- | Transaction monitoring
- | Existing or expected risk

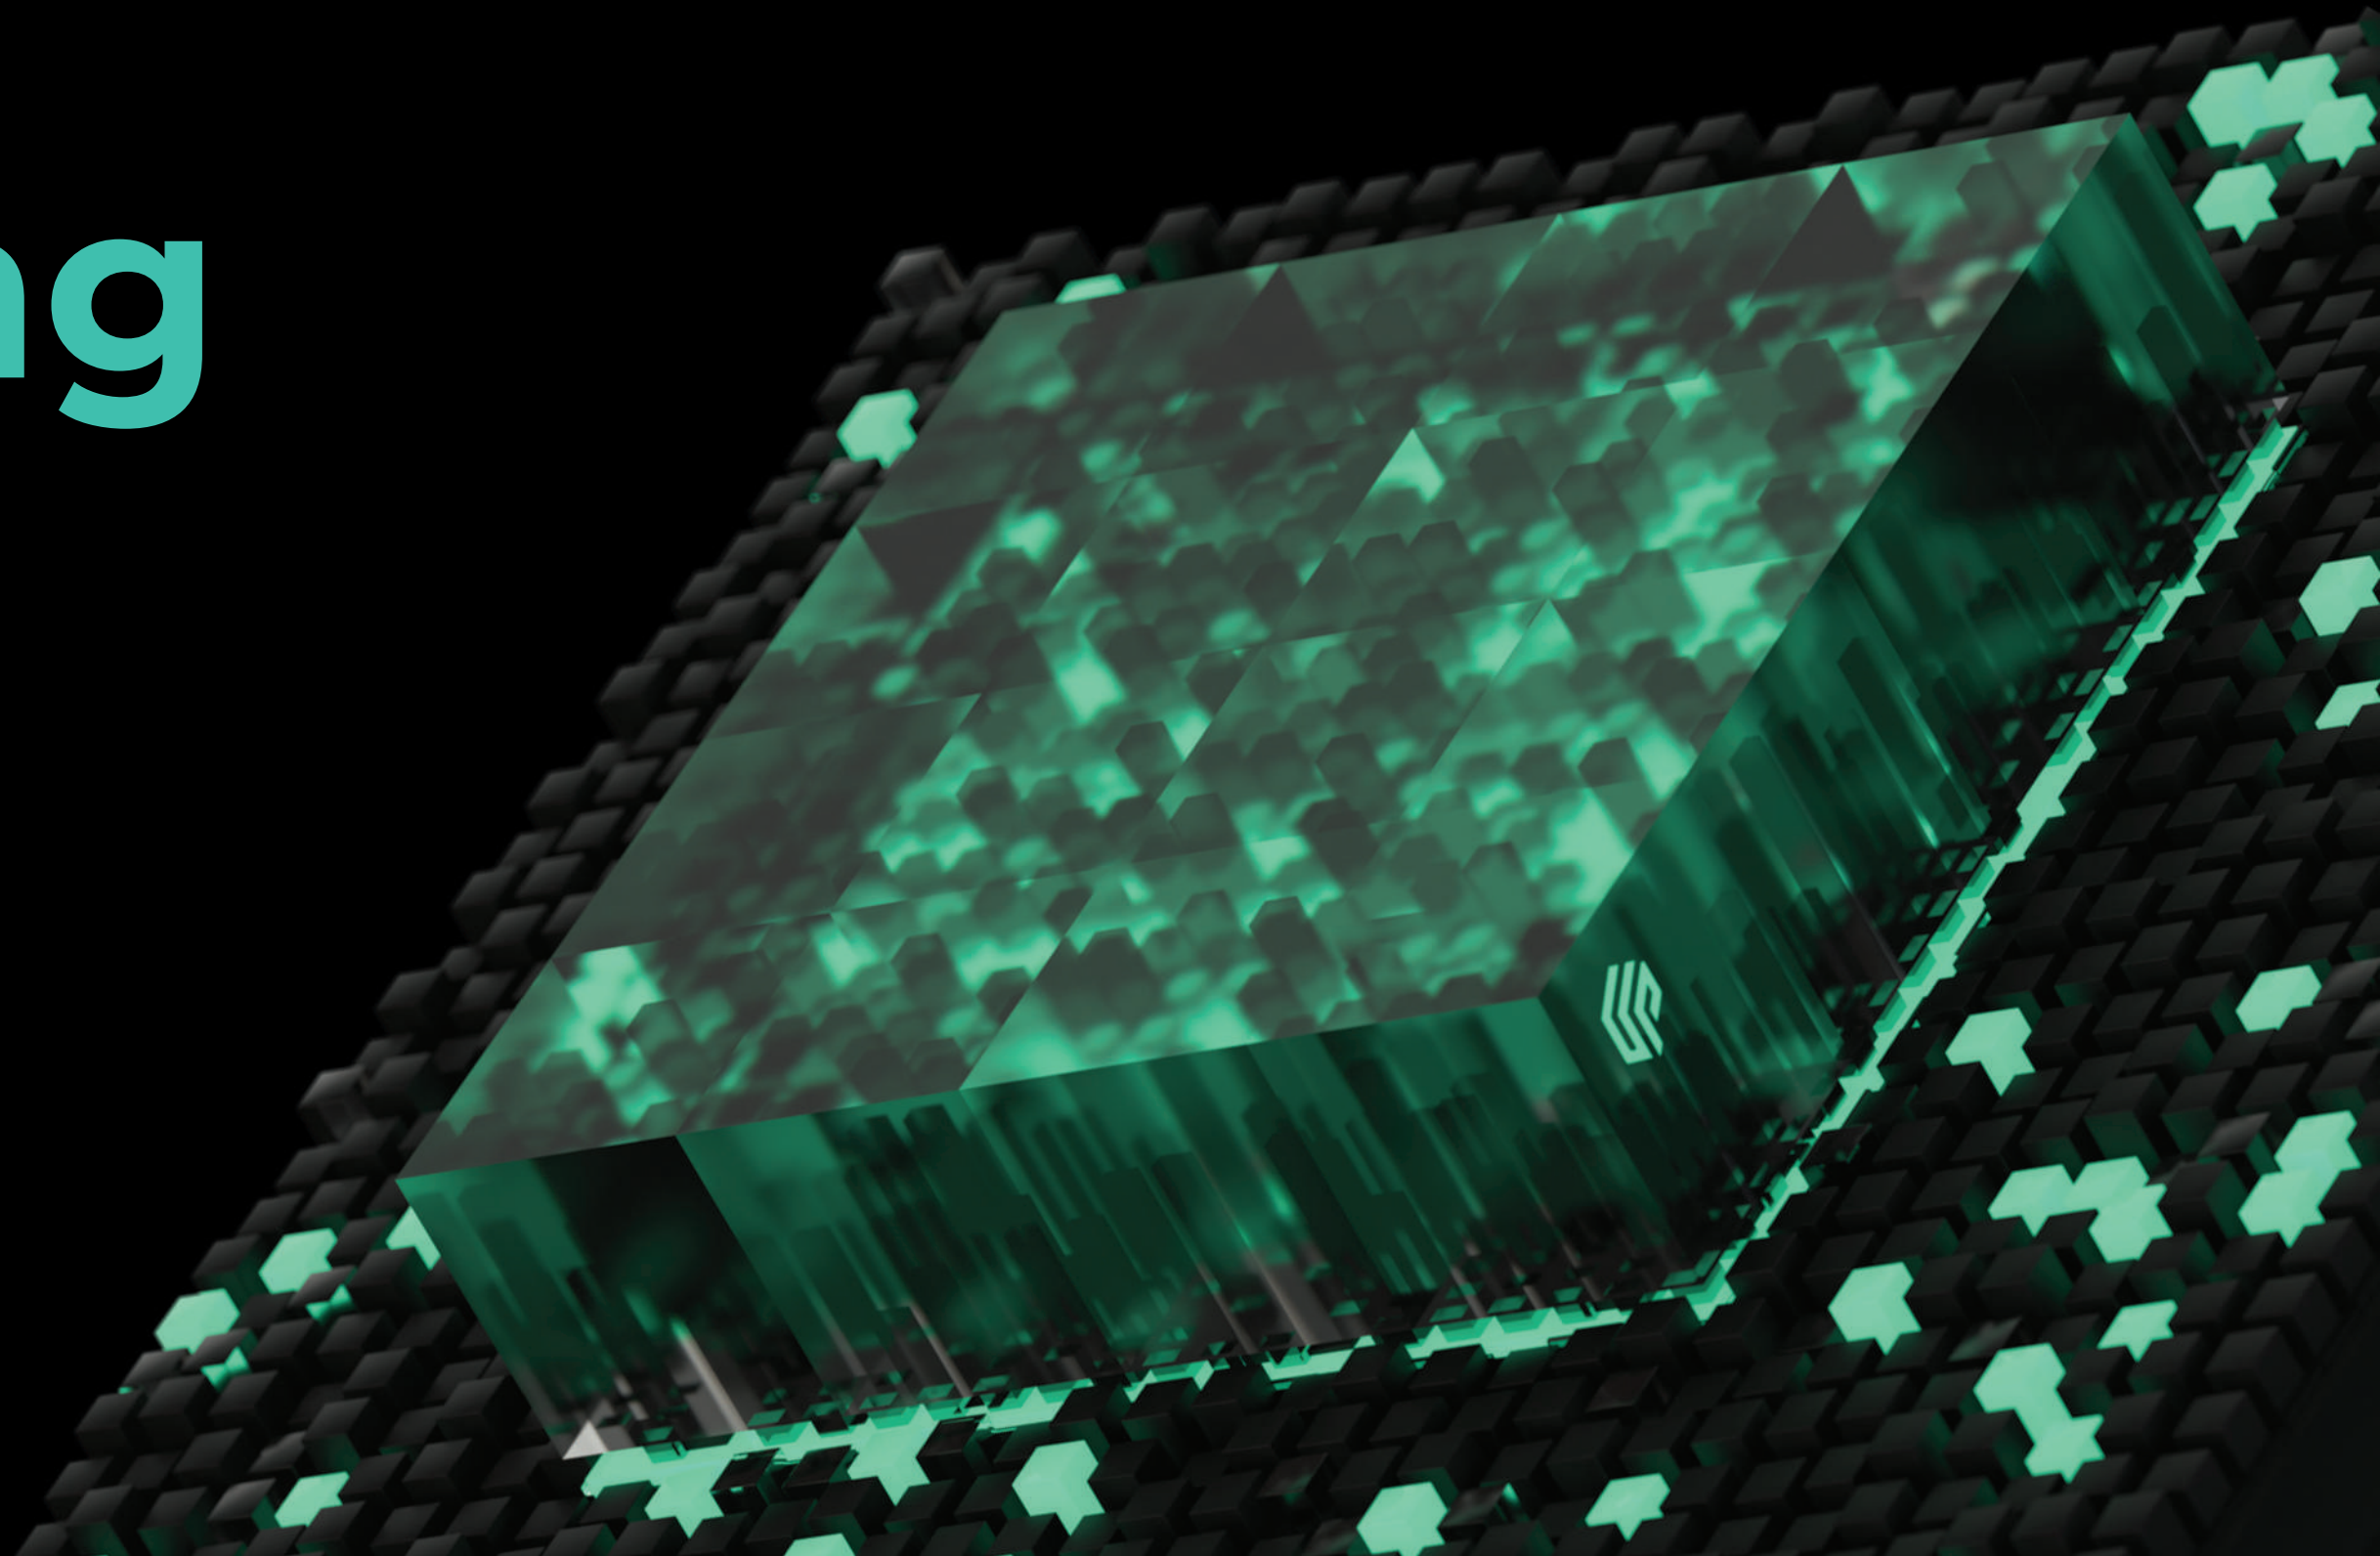

Risk Management

Upgaming's Risk and fraud monitoring team continuously **tracks potential risks** and **fraud attempts**, saving your casino from unnecessary losses, thus creating a **safe environment** for your business growth.

- 1 Real Time updates about fraud attempts
 - 2 Set limitations on any player or player group
 - 3 Create a safe environment for business development
- 

Marketing solutions

Casino marketing is one of the core **pillars of growing** and maintaining the iGaming business. Thus Upgaming offers leading edge and **complete marketing solutions** - affiliate and agent systems for **acquiring new customers** and a fully customizable bonus system for **retaining them**.

Affiliate System

Create your **affiliate network Manage**, track, analyze and **optimize your casino's online advertising activities** from a single space.

- | Track all your affiliate campaigns
- | Eliminate fraudulent traffic from your affiliate campaigns
- | analyze data for actionable insights
- | Optimize campaign performance
- | manage assets and commissions
- | use automatic or manual payments
- | pay by rev share, CPA, or hybrid

Agent System

Break free of traditional payment methods and limitations, upgrade your Casino and receive offline payments, **create your network** of agents, customize their rights and **chain-of-command**, grow your business with Upgaming's agent management system allowing you the following:

- | Serve offline players with your online Casino
- | Create a chain-of-command for your agents and give custom permissions
- | Create a multi-level network with unlimited super agents, subagents, and agent accounts
- | Create additional roles within the agent system
- | Manage a flow of credits and deposits
- | Control a share of profits between an operator and agent
- | Transfer credit/money to the player or an agent
- | Control risks and analyze the data.
- | Allow agents to build your network by enabling them to employ new agents and players.

Payment

Leading payments infrastructure for igaming business provides safe and secure transactions from any type (digital wallets, cryptocurrency, bank transfers) of **local and international payments**.

- | Receive Real-time deposits analytics
- | Use a variety of payment methods
- | Add Custom payment methods
- | Anti-fraud system
- | Chargeback fraud control
- | 24/7 Support group
