Innovative Concepts

A few of our innovative concepts that we pride ourselves with are the following:

- Interactive characters that help the player win more (present in our game **Gingers and Gems**)
- Winning symbols that stay in place (**Gingers and Gems**)
- Slot in the form of a wheel (**Star Signs**)
- FREE SPINS and MULTIPLIER, which come together throughout the main game (**Jinn**)
- Option to collect free spins while collecting a trigger (**Lucky Submarine**)
- Diverse approach in calculating winning combinations:
 - Winning combinations of adjacent symbols that are not in line
 - Profitable combinations of symbols arranged horizontally or vertically

Innovative Concepts

- Games with the movement of symbols from different directions - from top to bottom, from bottom to top, from left to right, from right to left
- Personal collection from the player, which at 100% completion starts FREE SPINS or a bonus game (**Speed Race, Egypt Treasure**)
- Games with several bonus levels that are played consecutively, and the last one can win the jackpot (**Wizard of Plenty**)
- Thematic reskin on a festive theme - Christmas, Easter, St. Valentine and many more

In-game Marketing

- Instant Win games collection comes with Linked Progressive Jackpot
- All other games have their own Progressive Jackpot
- Mystery Jackpots are under development
- Free spins are available for all games
- Buy features are available for some games
- Thematic reskin on a festive theme - Christmas, Easter, St. Valentine Day and more
